By now I should have been somewhere
Or gone to school, or fixed my hair
Back down tell it to someone else
Who gives a shit and needs your help

'Cause I found what I needed
And I don't need you to tell me how you feel
And if I fall you are
Not the one that has to cope and deal

All my problems are for me
(All my problems are for me)

My God! Look at his tattoos and those earrings
He could never get a good job
Go home and beat your kids
So they don't turn out as bad as me

'Cause I found what I needed
And I don't need you to tell me how you feel
And if I fall you are
Not the one that has to cope and deal

All my problems are for me
(All my problems are for me)
I don't need your eyes to see
(I don't need your eyes to see)
I will be what I will be

Stop coming around 'cause you bother me
Stupid motherfucker pull your head out your ass and
see
What don't you get? Was I stuttering?
I don't need to take your shit, get away from me

Stop coming around 'cause you bother me
Stupid motherfucker pull your head out your ass and
see
What don't you get? Was I stuttering?
I don't need to take your shit, get away from me

All my problems are for me

(All my problems are for me)
I don't need your eyes to see
(I don't need your eyes to see)
I will be what I will be
(All my problems are for me)

All my problems are for me
(All my problems are for me)
I don't need your eyes to see
(I don't need your eyes to see)
All my problems are for me
(All my problems are for me)
