"Bomb The Hill"

Grab your skateboard, leave your troubles behind.
We're gonna hit the streets there's lots of fun to find
Hit a pebble or a crack fall down on your face,
Gonna find a curb and grind all over the place.

Bomb the hill, bomb the hill, bob the hill
Leave your troubles at the top

It doesn't even matter how good or bad you skate.
Put your ego in the trash on the way
We're out for fun, don't need bad vibes today.
Everybody scream real loud, the secret word is SKATE.
