Cold eyes and a painted face,
Black heart pumping discount rates.
The shell you've built around your world,
Let's nothing out.

So take your fucking faker face and stay away from
me.
I'm trying not to hear your lies or see your make-
believe.
The words you speak are empty and your stories, full
of holes.
You've got to know you'll burn in hell for all the lies
you've told.

Trust built on a mound of shit.
All signs pointing to your sins.
The smiles only make it worse for you,
You'll see.

So take your fucking faker face and stay away from
me.
I'm trying not to hear your lies or see your make-
believe.

The words you speak are empty and your stories, full
of holes.
You've got to know you'll burn in hell for all the lies
you've told.

Look deep in the mirror but try not to see.
Look deep in the river and try not to scream.
You've never been a giver, it's obvious to me.

So take your fucking faker face and stay away from
me.
I'm trying not to hear your lies or see your make-
believe.
The words you speak are empty and your stories, full
of holes.
You've got to know you'll burn in hell for all the lies
you've told.
