O'Lord save me from my own abuse
O'Lord help me to see the truth
I've been blind for so many years, O'Lord
O'Lord help me be a better man
O'Lord please help me to understand
Why we all must hurt like this, O'Lord

Hard to keep the faith while falling
Hard to see your face while crawling
Hard to keep the faith while falling down
With no one around....

O'Lord help me to control my rage
O'Lord tell me it's not to late
I've been angry for way to long, O'Lord
O God help me get my head on straight
O God take all this booze away
I've been locked in a drunken haze O'Lord

Hard to keep the faith while falling
Hard to see your face while crawling
Hard to keep the faith while falling down
With no one around
With no one around
With no one around

Doing this alone is not working out
Booze and broken bones are keeping me down
I need some direction, I need it right now
Falling now, Falling down

Hard to keep the faith while falling
Hard to see your face while crawling
Hard to keep the faith while falling down
With no one around
With no one around
With no one around
