i'm just a normal man
i wouldn't hurt nothing at all
but here we are

our leaders have a plan
i'd only kill if it's for them
now here we are

i drove in a car and flew in a plane
to come to your house and kick your door in
now it's down to this, it's just you and me
i'll blow your fucking head off for my country

i go to church and tithe

i go to work in a suit and tie
but this is war
i'm really not sure why
but the tv says that you are wrong
now here we are

[chorus]

my feet hurt from the sand
but still i march on gun in hand
cause this is war
this isn't what i planned
i wanted to be so much more
but this is war

[chorus]
