For what it's worth I think there's nobody like you
You've got grace
Got a heart beating and despite you're fun

As I grew up I was terrified of darkness
Now you're around I've no reason to be frightened

'Cause even if the sun came tumbling down
You light the ground I walk on
Even if the moon fell out of the sky
You light the ground I walk on

Now that you're mine I can't picture life without you
You're my friend
You're my lover
Wanna bite you

'Cause even if the sun came tumbling down
You light the ground I walk on
Even if the moon fell out of the sky
You light the ground I walk on

The world goes on spinning
And I can't retrace my heady footsteps to this place
I'm in heaven right now and I don't want to come down

'Cause even if the sun came tumbling down
You light the ground I walk on
Even if the moon fell out of the sky
You light the ground I walk on

Now we're alone
Gonna show how much I need you
Ah
Yeah
Kiss you so you won't ever wanna leave me
Hey
Yeah

'Cause even if the sun came tumbling down
You light the ground I walk on

Even if the moon fell out of the sky
You light the ground I walk on

'Cause even if the sun came tumbling down
You light the ground I walk on
Even if the moon fell out of the sky
You light the ground I walk on
