She's a girl in a world
she's a girl in a world, she's moving as fast as she
goes
She's moving as fast as she goes
Loves her mum and her dad, the only secure that she
knows
Loves her mom and her dad
But at night, she's alone, she's dreaming of somebody
new
The only secure that she knows
Her someone for to hold, she's praying the dream will
come true
But at night she's alone

She's dreaming of somebody new
Show me the way - show me, show me how
Her someone for to hold
Help me be brave - for love
She's praying the dream will come true
Show me the way - show me, tell me how

What do you say?
Show me the way

Show me, show me how
There's a pain in her heart, she's trying so hard to
unwind
Help me, be brave
Makes her cry in the night, when visions so real make
her blind
For love
Wants to break through the fear
Show me the way
Erasing the scars from within
Show me, tell me how
Start a new kind of being - she's down and she's
praying again
What do you say?

Show me the way - show me, show me how
There's a pain in her heart

Help me be brave - for love
She's trying to hard to unwind
Show me the way - show me, tell me how
Makes her cry in the night
What do you say?
When visions so real make her blind

Wants to break through the fear
You see she's
Erasing the scars from the pain
Turning the key, unlocking the door
Start a new kind of being
Embracing the rollercoaster world
She's down and she's praying again
Stepping outside, body and soul

Taking whatever future holds
Show me the way
Turning the key, unlocking the door
Show me, show me how
Embracing the rollercoaster world
Help me, be brave
Take it in stride, you're just twenty-five
For love
You know we've all been hurt before
Show me the way
(repeat)
Show me, tell me how

What do you say?
You know we've all been hurt before

So you're not alone
You see she's
So you're not alone
Turning the key, unlocking the door
Embracing the roller coaster world
Stepping outside with body and soul
Taking whatever future holds
Turning the key, unlocking the door
Embracing the roller coaster world
You're taking the stride, you're just twenty-five
You know we've all been hurt before

[Violin Solo]

You see she's
Turning the key, unlocking the door
Embracing the roller coaster world
Stepping outside with body and soul
Taking whatever future holds

Turning the key, unlocking the door
Embracing the roller coaster world
You're taking the stride, you're just twenty-five
You know we've all been hurt before
We've all been hurt before
See you're not alone, no
You're not alone
