One more day  
One last look before I leave it all behind  
And play the role that's meant for us that said we'd say  
goodbye

CuÃ©ntame, otra vez, si no es el mismo sol  
De ayer el que se esconde hoy  
Para tÃ¡, para mÃ¡, para nadie mÃ¡is  
Se ha inventado el mar

If I promise to believe will you believe  
That there's nowhere that we'd rather be  
Nowhere describes where we are  
I've no choice  
I love you  
Leave  
Love you wave goodbye

And all I ever wanted was to stay  
(All I ever wanted was to stay)  
And nothing in this world's gonna change  
Change

Never wanna wake up from this night  
Never  
(Never)  
Wanna leave this moment  
Waiting for you only  
Only you  
Never gonna forget every single thing you do  
When loving you is my finest hour  
Leaving you  
The hardest day of my life  
The hardest day of my life

DÃ©jame  
Que te dÃ©  
Cada segundo envuelto en un atardecer de vida  
Para ti  
Para mÃ¡  
Para nadie mÃ¡is

(Oh)  
(Life empty inside)  
Se ha inventado el mar

But I never will regret a single day  
Y ninguno sab a muy bien qu  hacer  
What I'm feeling  
(Aquella noche)  
(Noche)  
I will always love you  
Leave  
Love you wave goodbye  
(Love you wave goodbye)

(And all I ever wanted was to stay)  
(Y este maldito atardecer)  
Nothing in this world's gonna change

Never wanna wake up from this night  
Never  
(Never)  
Wanna leave this moment  
Waiting for you only  
Only you  
Never gonna forget every single thing you do  
When loving you is my finest hour  
I never knew I'd ever feel this way  
I feel for you

Never wanna wake up  
(I feel for you)  
(I feel for you)  
From this night  
Never  
(Never)  
(Never)  
Wanna leave this moment  
Waiting for you only  
Only you  
Never gonna forget  
(Never gonna forget)  
Every single thing you do  
When loving you is my finest hour  
Leaving you  
The hardest day of my life  
Never wanna wake up from this night
