Gone are the days when I was young and free
Gone are the days when i was young and free
The future, I can't see
The future i can see
Gone are the days of precious love
Gone are the days of precious love
Relied on and leaned on
Relied on and leaned on
So many days of sleepless nights
So many days of sleepless nights
By your side, why-oh-why
By your side, why-oh-why
I never thought that it would be like this
I never thought that it would be like this
My first love, the last time
My first love, the last time

But if he say, say, says that he loves me (say that you
love me)
But if he say, say, says that he loves me (say that you
love me)
I can't cry, I can't smile
I can cry, i can smile
But if he say, say, says that he needs me (say that you
need me=
But if he say, say, says that he needs me (say that you
need me)
There's a light, there's a light
There's a light, there's a light
Light for me
Light for me
(Sa-ay)
(sa-ay)

So many things that I would like to say
So many things that i would like to say
But he took you, took you away
But he took you, took you away
So many things I'd like to ask
So many things i'd like to ask
It's no good, 'cause you're not here

It's no good, 'cause you're not here
I hear your voice, I see you laugh
I hear your voice, i see you laugh
if only you were here
If only you were here
You've seen the night, and I the day
You've seen the night, and i the day
But sometime we'll ???
But sometime we will walk away

But if he say, say, says that he loves me
But if he say, say, says that he loves me
I can't cry, I can't smile
I can cry, i can smile
But if he say, say, says that he needs me
But if he say, say, says that he needs me
There's a light, there's a light
There's a light, there's a light
Light for me
Light for me

(Never wanna feel that again, that again
(never wanna feel that again, that again
Never wanna feel that again)
Never wanna feel that again)

(Lead on, gotta rely on, don't leave me, don't leave me)
(lead on, gotta rely on, don't leave me, don't leave me)
(Lead on, gotta rely on, don't leave me, don't leave me)
(lead on, gotta rely on, don't leave me, don't leave me)
((Lead on, rely on, please me, please me)
((lead on, rely on, please me, please me)
Gone are the days when I was young and free
Gone are the days when i was young and free
(Lead on, gotta rely on, don't leave me, don't leave me)
(lead on, gotta rely on, don't leave me, don't leave me)
((Lead on, rely on, please me, please me)
((lead on, rely on, please me, please me)
Gone are the days of precious love
Gone are the days of precious love
(Lead on, gotta rely on, don't leave me, don't leave me)
(lead on, gotta rely on, don't leave me, don't leave me)
((Lead on, rely on, please me, please me)
((lead on, rely on, please me, please me)
Relied on and leaned on
Relied on and leaned on

But if he say, say, says that he loves me
But if he say, say, says that he loves me
I can't cry, I can't smile
I can cry, i can smile
But if he say, say, says that he needs me
But if he say, say, says that he needs me
There's a light, there's a light
There's a light, there's a light
Light for me
Light for me

[Repeat Chorus]

Light for me

(Sa-ay)
