(featuring Mary J. Blige)

You know life is funny
When you look at it everybody
wants love
and everybodys afraid of love
I'm a firm believer that if you
get anything out of love
you got to put up with the tugs
and strive yeah
you almost push our love a little
bit too far
we forgot to remember how blessed
we are

And that girl over there telling
you what she sees
you don't have to worry she ain't
gonna get next to me
you told me to think it over and
I thought it over
and over and over over and over
you see 'cause

Chorus
That's the way I feel about you
That's the way I feel about you
That's the way I feel about you
That's the way I feel about you

I know you've been hurt so have
many of us too
that's a sacrifice life is gonna
put you through
trust in me like I trust in you
sometimes I look at you baby
And wonder if God sent you here
don't take my love as a sign of
weakness
check into the situation it gets
a little deeper

told me to think it over and I
thought it over

Chorus

Please, please, please answer to love
if it ever come knocking at your door
'cause what's out there knocking baby
the world don't get enough of
I know you've been hurt so many have
many of us too
That's a sacrifice that life is gonna
put you through
don't take my love as a sign of a weakness
check into the situation it gets a little
deeper and deeper
you told me to think it over and I thought
it over
you think it over baby

Chorus

Fade
