I see you!

You thought you got it all figured out
Well I beg to differ
Make your own path for me
We will not follow
What the hell is the point anyway tell me?

Oh, the story goes
This truth hurts more than lies
(I've never seen this side of you before)
Oh, the story goes
This truth hurts more than lies
(Nor will I ever)

You were doing so good!
You were doing so good too, until you opened your
mouth

Darling, what have you become?
Don't look back
Forget everything you knew

You fade in pictures
What happened to February?
Tell me baby, "I know that I'm wrong but it hurts to see
that you don't remember"

Oh, the story goes
This truth hurts more than lies
(I've never seen this side of you before)
Oh, the story goes
This truth hurts more than lies
(Nor will I ever)

At the bottom of the ocean lies a treasure chest for you

Why don't you say this another time?
We can possibly find another way out of this
Wait, we've tried and tried
