I've always imagined you with your face on a twelve gauge!

You've tested me
Did you want me to stand still?
I never thought that this would happened
But apparently time stands still

Look up to the sky
I can see you from here
I told you to move
And I will be here

I've known you for so long and now you right here
What should I do with you?

Now you're standing up
And I'm looking into your eyes
I'll see you this last time
I swear I tried it all
Mouth to mouth and heart to heart
Baby, it's not enough

Holy smokes!
Who knew the safety was off
I did!

Boom!

Oh god I admit I did it
But you know you deserved the bullet
