This is where we come to life

Telescopes catch from across the room
My hands are shaking hearts are beating and I can't
see straight
Lucky me walking right over to you
Right into your life and I said come with me

Run with me
Can't you see that the sky is falling

Is it me or is it cold in here
Take off your jacket, let down your long hair and dance
with me
Is it you or is it hot in here
It's not nearly hot enough I'm sure we can turn it up
dance with me

Fast or slow however you want it

And we both know
How this ends for us all
And we both know
What it means to be alive

Anyone can tell an answer from a question
Answer me!

Get up, get out, this is a wake up call
No need to stop in the bathroom hall
You know me but I know you
You'll never see my face again
What are you looking at?
