This is our time now
We won't let this die
We're the ones that'll keep it alive
So young and full of integrity
And we got that hardcore pride
No one cares how long you've been around
Give it more years and you'll be in the ground
New bloods will keep it going on
True niggas always keep it strong
We won't let this die (we won't)
We're the ones that'll keep it alive
We won't let this die (we won't)
We're the ones that'll keep it alive
This is our time now
This is our time
This is our time now
