You show up when nothing's up  
Just to beat us down  
Call you when we need you and you aren't around  
I can't believe you demand respect  
When you never help us  
You're just another word  
Shit on your duty  
You never focus  
Sit and eat in your car  
That's why you're overweight  
Tell everyone you're a hero  
You're just another fake  
Can't speak my fucking mind  
Cause I'm not your fucking kind  
Overstep your boundaries  
You're no better than me  
I can't believe you want respect  
When you never help us  
You're just another word  
Shit on your duty  
You never focus  
Cowards  
Cowards on patrol  
I wanna see you die  
I wanna see you die slow
