You can walk with your head in the clouds  
You won't find the place to hide  
You can lie through your teeth in the night  
You can't hide the hurt inside

You can think 'bout the lies that you told me  
It won't be the only one  
Alibis, someday I will forgive you  
When everything is said and done

See me walking with someone new  
It makes no difference  
'Cause everything I have is blue

You will write I don't know what I'm doing  
I won't last a day without you  
In the night contemplating my doing  
Things you said that now all come true

Wanna go, wanna stay with you, baby  
I've know we're going crazy, I know  
Wanna be someone else in my dreams  
There's a much better place I can go

See me walking with someone new  
It makes no difference  
'Cause everything I have is blue

Everything I have is blue  
Everything I have is blue

You can walk with your head in the clouds  
You won't find the place to hide  
You can lie through your teeth in the night  
It won't help the hurt inside

Wanna go, wanna stay with you, baby  
I've know we're going crazy, I know  
Wanna be someone else in my dreams  
There's a much better place I can go

See me walking with someone new

It makes no difference  
'Cause everything I have is blue

Everything I have is blue  
Everything I have is blue  
Everything I have is blue  
Everything I have is blue
