It was just yesterday  
That I saw your face  
Looking in my window  
I can't recall the place we first met  
It seems, but I guess that you know

#### CHORUS

Hadn't thought about it  
for a long, long time  
But still she's here inside me  
Never off my mind  
I try to hide it from you but you know  
And I hear it over and over again

Do you recall the day I first came your way  
And I had to know you  
When you stepped in the way  
And I smiled at you  
Though I never meant to be

#### CHORUS

You can talk about tomorrow  
All your talkin' doesn't mean a thing  
All our yesterdays are sorrow  
Can't stop remembering

#### CHORUS

It was just yesterday  
That I saw your face  
Looking in my window  
I can't recall the place we first met  
It seems, but I guess that you know

#### CHORUS
