Rising high, in the morning and the night Feeling low
never knowing where you'll fall
Hypnotized, nothing can make you feel this way
No way out, cause now your trapped and can't go back
Why couldn't you come to me
Knowing I'll be there for you
Is love so strong why can't you turn around And look for
me my baby
I love you

Chorus:
Don't do the things you do
My fallen angel
My heart will love
Make your body turn away
So give it up baby (so give it up baby)

So look at yourself now
Can't speak true words
Only deception looks your way
Deception looks your way
And so your alone now
Turned away from friends
Look in the mirror and can't you see
So now can't you see my baby

Chorus (1x)

Why couldn't you come to me
Knowing I'll be there for you
Is love so strong why can't you turn around
And look for me my baby
I love you

Chorus (2x)
