It's easier said than done to make a life for yourself.
One minute you find they turn around, the worlds gone off with someone else.
And if it seems that way i guess it is that way but there's no need to be alone.
You can always ask, you can always call, i want nothing in return, because you know i don't need
excuses, from a girl like you.
And you know i won't think it stupid, just to talk things through. Forgive me if i don't understand it,
but it's not the way i planned it, no So i'll be here always, whenever you need me.
If you need a friend i'll be there.
Someone to rely someone on, someone who cares.
You can always believe in me.
Someone who will catch you when you fall.
Somebody behind you through it all.
You can always depend on me.
You can always count on, you can always count, you can always count on me.

It's easy for me to say go make a life for yourself
But if that's what i want then why is it the hardest thing in the world
Because you know i don't need excuses, from someone like you.
And you know i won't think it stupid, just to talk things through.
Forgive me if i don't understand it, I guess it's not the way we planned it.
So i'll be here always, whenever you need me.
If you need a friend, i'll be there.
Someone to rely on, someone who cares.
You can always believe in me.
Someone who will catch you when you fall.
Somebody behind you through it all.
You can always depend on me.
You can always count on, you can always count, you can always count on me.
My world would fall apart if you left me, babe.
I don't know where to start but i'll try it, babe.
Because i don't know what i would do without you

Baby without you,
With or without you.

And you know I don't need excuses, from someone like you.
And you know I won't think it stupid just to talk things through.
So forgive me if I don't understand it, but it's not the way I planned it, no.
But you can always count on, you can always count, you can always count on me
