Well this insane cop,
He pulls right up behind me. (x2)
He screams through his megaphone,
alright pull over.

Well this insane cop,
He pulls right up behind me.
He switched on his lights,
and flashed on his brights, twice.

Boy was my face red!
or blue?
As I sped past him.

Well this insane cop,
He pulls right up behind me.
Said OK chief, lemme see your license.
Gave me fifteen tickets,
and said "where's the fire chief?"

Well this insane cop,
He pulls right up behind me. (x2)
Well this insane cop,
He's just a dot in my rear view.
Well this insane cop. (x2)
