

Couldn't Care Less

"Bad Hair Day"

Woke up in the morning
My reflection in the mirror
Didn't know what it was
But it wanted to crawl away
I got scared even more
When I saw it was my own

I've got a bad hair day
I think that it is alive
It doesn't want to go away
I believe it's here to stay
So please don't say
I've got a bad hair day

Tried to gel and glue it
But it didn't want to do it
Then I saw the solution
And got it covered today
It didn't stay on for that long
Not till the end of this song

I've got a bad hair day
I think that it is alive
It doesn't want to go away
I believe it's here to stay
So please don't say
I've got a bad hair day

I've got a bad hair day
I think that it is alive
It doesn't want to go away
I believe it's here to stay
So please don't say
I've got a bad hair day
