

This Town, Going Under

"Snow"

Visit "[Snow](#)" on MotoLyrics.com

It starts with snow
Covering all that we know
Peace returns to this world below
Peace returns

Why sleep, through the winter
Are you afraid of living through the danger?

Let it snow
Let it hide our footsteps
Erasing the paths we've chosen
Forgetting the vices for which we've fallen

If only the sun could lie
And the snow never melt

Snow, freezing, burning my skin but healing the
ground,
Calming it down, sleep, at last, rest for the months to
come

Can you feel it? Can you feel it? Can you feel it?
Cold, it takes your breath away, freezing life around,
Stopping the time for a minute when the sun hides
When the sun will hide

Let it snow
Let it hide our footsteps
Erasing the paths we've chosen
Forgetting the vices for which we've fallen

If only the sun could lie
And the snow never melt
