Chuck it up, yeah we comin' up like we runnin' stuff
There is us, opposite end with all the other ones
Ten what? No I mean a-ten-hut
They better pretend that we ain't ever meant ta,

Act the way we do. Or rap the way we do
You're acting maybe you'd, go back and learn just like
a baby do-
Do is what you write, like a knife in the night
Swipe-swipe catch the light, hold on now real tight

Buck buck, too right no I never make a wrong turn
Take some advice, a guy's here for the long term
Lesson's get learnt as the sessions get burnt
Cremate the space that I invade, the mic's in an urn

I'm tired of worms wiggling around me
Please gimme room, estate is kinda crowdy
Rowdy, always been an introvert
You think I'm doing it wrong? I don't think so, burn
yourself

Propane to the face, napalm plus
Gasoline now put your damn lighters up
Over here now smile for the cameras
Flash quick, match stick got stamina

Up scale them other brothers ain't catchin' up
Oh well, they fail while we damage more
Beats and videos, you silly billy really bro
Just follow my train of thought that locomotive flow

And you can't step to me, destiny
Reppin' ecstasy on this desolate beat, epic is me
Took change ain't the same as I used ta,
Ahead of my time, flash backing from the future

You need to lighten up, that MJ tip
Flow tight enough, exert pressure and the greatness
Is somethin' they ratin', really if you hate him
You gon' have a date with your maker

So dress nice, them tights a little make up
Dumb clowns, don't frown you shouldn't take a,
Joke too far like you really need to stop it
So Spooked no spoof just truth on the topic

This, is, D.A.
They say I should know better but I ain't ever met him
The best ain't nothin' to me but unaccepted
