Mister  
Dont hide your heart away  
Keeping emotional ways at bay  
Show the glow let it overflow,  
Overflow your cup hiding away in your tough disguise  
Your beauty and your emotional sides  
Inside is all the love

Talented fool  
Foolish of you  
To keep it for yourself

Talented fool  
Foolish of you  
To keep it for yourself

Mr your tears are the sweetest things  
Liquid from your soul escape  
You said the best things when you were taking a fall

You felt like you were going to die  
And then you said it all  
And then you said it all  
Hiding away in your tough disguise  
Your beauty and your emotional sides  
Inside is all the love.
