What it was or what it is  
You took me off where I left it  
Guessing and wandering what I did  
All through the night and we drift a little  
I knew you before  
I think you're with me, im not sure  
Didn't know what it was  
Don't you know who I am  
'Cause I don't know myself anymore  
'Cause I didn't know what it was before  
I didn't what it was ( repeat )  
What it is or what it was  
You took me in when I got off  
Forever keeping me just a bit  
Back in a way that still tilts a little  
I know you before, a feeling, a motion a wave  
I look at you now and question the future  
Don't you know who I am  
'Cause I don't know myself anymore  
'Cause I didn't know what it was before  
I didn't what it was ( repeat )
