Could give it another shot,
But it won't help us.
So much harder to break up; to make up.
Come on lame; afraid to see me?
Cos we might say something hurtful, abusive to us.

This is where we've come to.
There was a time when it was me and you.
Though it's hard to keep moving;
It's the only way to get over you my love
(Over you my love).

You're still asleep; you don't hear me.
How come I feel so deceiving; leaving it all?

This is what it's come to.
There was a time when it was me and you.
And though it's hard to keep moving;
It's the only way to get over you my love... over you my
love.

(Over you my love)
This is what it's come to.
There was a time when it was me and you.
Though it's hard to keep moving;
It's the only way to get over you my love... over you my
love.
