I'm dying  
I'm crying  
Going crazy  
Because of you  
You tear my soul apart  
I was hit by cupid's dart

She took my nights  
Took my days  
She took the keys to my  
Brand new Chevrolet

Needless to say  
She's driving away  
From me

Baby please come back to me  
All I want are my keys  
You can have my heart  
Please give me my car  
Please give me my car

She took my nights  
Took my days  
She took the keys to my  
Brand new Chevrolet

As you drove away  
I could hear you say  
As you drove away  
I could hear you say

Happy Valentine's Day
