I take it i dont know
you know we never saw this coming
the last thing that it needed
the single thing it really took
is one more little push

my lucky little ice breaker
forget about it all
keep the best
and screw whats left
anyway what did it do for you
spare me your life story
and dont say its all my fault
when you know...

I take it you dont know
you know i never saw it changing
the last thing that it needed
the single thing it took
is one more push

my lucky little ice breaker
forget about it all
keep the best
and screw whats left
anyway what did it do for you
spare me your life story
and dont say its all my fault
when you know
its the drama that became you
the thoughts of fitting in
all the fear of loosing
all your so called friends
just tell me this one last thing
why give it up for fitting in

my lucky little ice breaker
please forget it all
whats left is beyond saving
but the rest just takes one call
think about the good times

the summer is still waiting
think really long and hard
one block is all it really takes
to fix what we know we are
