Winter shades a distant light  
Shining until the night has come and gone  
When everyone on earth should be as one  
Ooooo this night  
People plan the day ahead  
Reflecting on the feast that comes to mind  
A blessing for the world and all mankind  
Ooooo this night  
Christmas isn't just for children  
It's for the hearts of everyone around  
Christmas isn't just for children  
It's a time when happiness is found  
All the year the fear in pain  
Seems captured in a world that knows no hope  
Left hanging in a noose without the rope  
Oooo but then  
Christmas isn't...  
You and I we've come so far and still a light up in the  
sky  
Shines so bright  
We build our hopes and dreams for years to come  
Let Christmas be the time for old and young  
Christmas isn't just for children  
Christmas isn't just for children  
Christmas isn't just for children  
Christmas isn't just for children  
Christmas isn't just for children  
Christmas isn't just for children
