"In The Middle"

Visit "[In The Middle](#)" on MotoLyrics.com

Sometimes it's seems hard to see I care
For you
And sometimes it's hard for you to see I'm there with
you.
(Be strong, hold on) and know
I'm right there in the middle

[Chorus:]
(When you cried)
I was there
(When you were sad)
I made you happy
(When you were alone)
I was your friend
I'm in the middle
(When you were in need)
I provided
(When you couldn't see)
I led the way
I was there to see you, see you through it all
I'm right there in
(In the middle, in the middle of)

Sometimes I know in my heart that you
Really love me
But other times I must question your faith
(Don't give up, always love God)
Don't give in
I'm right there
(In the middle)

[Chorus:]
(When you cried)
I was there
(When you were sad)
I made you happy
(When you were alone)
I was your friend
I'm in the middle
(When you were in need)
I provided

(When you couldn't see)
I led the way, yeah
I was there to see you through it all
I'm right there in
(In the middle, in the middle of)

Pain and your heart ache
(In the middle, in the middle of)
Yeah

I was there in the middle of your pain, yeah
I was there when they tried to take your hope away
I was there when you didn't know your right from
wrong, yeah
I was there when your friends walked out on you
I was there when you didn't know what to do, yeah
When you searched and found all of your family was
gone
When you couldn't see your night from day
Oh oh oh I was there when you couldn't find your way
I was there from the beginning
Until the very end
Ooh ooh
I was there, I was there
It was me yeah
I was there
I head every plea
Oohoo
I'll come running everytime

(Be strong) Just hold on
And know
I'm right there in
(In the middle, in the middle of)
Right there, oh right there
Oh right there in
In the middle of
