

## Smokie "Light A Candle"

Visit "[Light A Candle](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's here again  
It's that time of year  
We're so far apart  
That it's breaking my heart  
Just to know you won't be here  
But I won't cry  
I didn't ask why

So just light a candle for me  
On New Years Eve  
All on my own  
You're so far away  
A year further on  
And the feeling's still strong  
How I wish you'd wanted to stay  
But I'd be strong  
Cause it won't be long  
So just light a candle for me  
On Christmas Eve

And when the bells are ringing  
And Christmas is bringing  
A magic that fills the air  
You'll be a wonderful sight  
On a cold christmas night  
And I know  
I'll be there  
with you, with you  
Christmas with you

Thinking of you  
As I walk through the snow  
I remember your kiss  
And just how much I miss  
Your smile, I won't let go  
But I'll be strong  
No, it won't be long  
So just light a candle for me  
On New Years Eve

And when the bells are ringing  
And Christmas is bringing

A magic that fills the air  
You'll be a wonderful sight  
On a cold christmas night  
And I know  
I'll be there  
with you, with you  
Christmas with you

But I'll be strong  
It won't be long  
So just light a candle for me  
On Christmas Eve

And when the bells are ringing  
And Christmas is bringing  
A magic that fills the air  
You'll be a wonderful sight  
On a cold christmas night  
And I know  
I'll be there  
with you, with you  
Christmas with you  
With You
