

Smokie "Naked Love"

Visit "[Naked Love](#)" on MotoLyrics.com

I'll kiss your lips
My finger tips
Will know just what to do
Tonight's the night that I will find
The woman that's in you.
I'll kiss you, caress you,
Slowly undress you,
And we'll make love
All night through

Chorus:
Baby love me, lady love me,
Like no one ever could
I can never, never ever
Get enough naked love

Don't try to fight,
What's locked inside?
Just open up the door
Let me in, just give in
To what you waited for.

I'll touch you, tease you,
I'm here just to please you
And we have got
All night love.

Chorus:
Baby love me...

Hold on, be strong,
You know, it can't be wrong,
Let love lead you,
Let me show you the way, oh yeah...
