"She Rides Wild Horses"

Visit "[She Rides Wild Horses](#)" on MotoLyrics.com

It's just her and the band and the
Clean up man
She's countin' up her tips,
She did alright, she says goodnight
She drives home to a three room flat
She's almost asleep before she turns
Out the light
In her dreams she rides wild horses
And they carry her away on the wind

And they never make a sound
As they fly above the ground
Tonight she rides wild horses again
She's fallin' in love a time or two
Somehow it always fell through but she's strong
She carries on
Her life ain't always gonna be this way
She knows she's gonna shine someday
But for now she'll escape until the dawn

In her dreams she rides wild horses
And they carry her away on the wind
And they never make a sound
As they fly above the ground
Tonight she rides wild horses again

In her dreams she rides wild horses
And they carry her away on the wind
And they never make a sound
As they fly above the ground
Tonight she rides wild horses again
