A lonely castle on an island  
A string of diamonds on a ring of gold  
All the fortune that surrounds them  
Couldn't take the place of you now  
He gave me all he gave me glory  
You made a palace grow in my minds eye  
Making the darkside of the story  
It's simply passing by  
All I wanted was for you to stand by me  
You gave me everything that I could ever need  
Oooo I'm telling you  
Your love is so good for me  
Your love is so good for me  
Your love is so good for me  
All I wanted was for you to stand by me  
You gave me everything that I could ever need  
Your love is so good for me...  
I try not to show that I'm missing you so but I am  
Your love is so good for me...  
Your love is so good for me...
