Back atcha once again
D O A got the track
And my man Smokie
He got the word Y'all

Somethin', somethin
Somethin', Somethin'
Somethin', somethin'
Somethin', Somethin'

Somethin' that makes me move
whenever I'm next to you
Somethin' that makes me wanna do
That little dance I do

When I call your name, you come through just the same
Tryin' to understand, there's somethin' about that man
Can't put my finger on it, can't quite comprehend
One thing I'm sure of, on him I can depend

Somethin' about that man, somethin about that man
And how he holds the world all up in his hands
I can't understand, can't understand
Somethin' about that man, about that man

Somethin', somethin
Somethin', Somethin'
Somethin', somethin'
Somethin', Somethin'

Wonderful, marvelous and awesome is your name
Jesus when you come around, men can't act the same
Many have lied, many have tried but all of them
eventually die
Then you come along and show 'em your little
somethin', somethin'

Most of them Immortalize, Mohammed
Even confess confucious
But Jesus is still the name
And there's somethin' about that man

Somethin' about that man, somethin about that man
And how he holds the world all up in his hands
I can't understand, can't understand
Somethin' about that man, about that man

Somethin', somethin
Somethin', Somethin'
Somethin', somethin'
Somethin', Somethin'

Somethin' about that man, somethin' about that man
And how he holds the world all up in his hands
I can't understand, can't understand
There's somethin' about that man, about that man

Somethin', somethin
Somethin', Somethin'
Somethin', somethin'
Somethin', Somethin'

If anybody, everybody feel the way I do
Can y'all get your praise on
If anybody, everybody feel the way I do
Can y'all get your praise on

Smokie gonna make you lose your mind
Up in here, up in here
Smokie gonna make you get your praise
Up in here, up in here

Somethin' about that man, somethin' about that man
And how he holds the world all up in his hands
I can't understand, can't understand
Somethin' about that man, about that man

Somethin', somethin
Somethin', Somethin'
Somethin', somethin'
Somethin', Somethin'

Somethin' about that man, somethin about that man
And how he holds the world all up in his hands
I can't understand, can't understand
Somethin' about that man, about that man

Somethin', somethin
Somethin', Somethin'
Somethin', somethin'
Somethin', Somethin'
