I just can't get enough of my girlfriend  
I'm glad I'm so in love with my girlfriend  
She just wants to be somebody's baby  
That's where I come in  
Helping her get through the grey skies and the blue,  
blue

I can't get out of bed with my girlfriend  
I'll just stay here instead with my girlfriend  
She just wants to be in somebody's arms  
That's where mine come in  
Holding her so tight, morning noon and night

She just wants to be somebody's only one  
That's what I have done  
And I'm so glad that she is glad to be with me

La, la, la, la, lum *[repeat three more times]*

*She just wants to be somebody's baby  
That's where I come in*
