[Chorus: Ms. Lisha] - 2X

I only wanna be with you

Ohhh, and you know that my love is true

[Verse 1]

I know you seen me in the videos girl

My name is D. Swain, and I wanna give you the world

But first I wanna get to know ya

I wanna get to show ya

The real way a lady is supposed to be treated

We can chill in the cut or we can go to the beach

Just me and you, what'chu wanna do?

We can go shoppin' for shoes

The Nike Airs with the matchin' laces

We can go to Marks & Morgan, get some matchin'
bracelets

Don't get it twisted, I ain't tryin' to spit game

But I'll be honest with you, half these niggas is lame

They're only after one thing, and we both know what it
is

So I hope you underdig where I'm comin' from

I'm trying to make you my number one, my main
squeeze

Baby tell me what you want from me, I aim to please

It's plain to see, I hope that you believe me boo

I only wanna be with you, now bring the chorus in

[Chorus] - 2X

[Verse 2]

Girl...why you over there lookin' at me

Like I'm tryin' to be your sugar daddy?

I'm not a gigolo, I don't keep the hookers happy

But I'll bet that if we hang out for a while

I can make you smile

We can go to Kim's Diner, play pool with some friends

But I'ma beat you; I'm just lettin' you know

And there's way too many reasons why I'm sweatin' you
for

And if I give you a hug, I ain't lettin' you go

Later on we can take a little walk in the park

It's not often my heart makes me fall in love so fast
I've been through a lot baby, I've been hurt in the past
But we can make this work perfect if our purpose is to
last

At last, I finally found the girl I wanna be with
Someone I can hold and share my secrets with
Don't keep the fence to your heart up for too long
C'mon baby and let's groove to the song
I only wanna be with you

[Chorus] - 2X

[Verse 3]

So what's the deal, you don't have to be confused at all
If you wanna roll, all you have to do is call
And I'll be there to pick you up if you fall
Order a root beer float and get two straws
You can always call on me if you wanna talk
I'll be right there, I won't even give it a second thought
You know you're fine, I tell you all the time
You're what the other fellas call a dime, but I call you a
queen
And I wanna fulfill all of your dreams
If you're diggin' what I'm sayin' just follow me
And if not then my apologies
For wastin' your time, baby
You makin' my mind crazy
'Cause all I do is think about you
Hoping that you feel me too but then I could be wrong
Hey yo, this ain't no mushy song but you gotta put me
on
I need ya, I need ya, I need ya
I only wanna be with you

[Chorus] - 4X
