...Festering tumefied remains...
...Stinking upon the dissection block...
...Cellular structure autolyzed...
...Dermal adhesion run amok...
...Slipping skin...
...Marbled flesh...
...Sloughing dermis...
...Discolored mess...
...Odorous putrefactants...
...Seeping from bloated pores...
...Ptomaine vapors sting sinuses...
...Hemolysis burns and gnaws...
...Slipping skin...
...Marbled flesh...
...Sloughing dermis...
...Discolored mess...
...Cadaver thorax shedding rot...
...Outer layer peeling green...
...Flays of skin rind in coils...
...As gasses burst through the seams...
...Vitiated fetid tissue...
...Autolytic vitriolic decay...
...Necro-dermatological issues...
...As the epidermis flakes away...
...Slipping skin...
...Marbled flesh...
...Sloughing dermis...
...Discolored mess...
