"Livier Mortis... Gravitational Blood Pooling"

Visit "[Livier Mortis... Gravitational Blood Pooling](#)" on MotoLyrics.com

Extravasated hemoglobular vitality
Vascular death, hematological finale
The postmortem settling of blood called lividity
A fascinating aspect of PMI morbidity...
Capillary beds...
Are sodden red...
Coagulants unglued...
Bruised black and blue...
Hypostasis, fixed and bruised
Blanched extremities a purplish hue
Sticky quagmire of darkened goo
The cadaver's posterior grumously imbrued...
Paludal mess...
Blood-tattoo compress...
Maroon patterns in flesh...
Rot's cruel caress...
The unmistakable gravitational pull after the
cessation of breath
The tiny red blood cells separate from plasma and sink
Clotting inside the lower recesses until the decedent
stinks...
Arteries leak...
Veins deplete...
Blood secretes...
Marinating meat...
