If I told you that I really  
Really liked you a lot  
I've wanted to for a long  
Long time but I never had the guts

I wonder what you would say  
I just can't go on this way  
I gotta know right now, today

I call your name from the  
Window of my car as I drive  
I wanna do something half insane  
To prove to you that I'm alive

I wonder what you would say  
I just can't go on this way  
I gotta know right now, today

As I walk by your house  
For the third time tonight  
And I stand in your drive way  
Hypnotized by your bedroom light

I wonder what you would say  
I just can't go on this way  
I gotta know right now, today

I gotta know right now  
I gotta know right now  
I gotta know right now
