I was at the lowest point of my life  
I couldn't talk to anyone  
Truly alone

There's no telling what  
I might have done  
If it hadn't been for you  
You pulled me through

I don't know if you actually saved my life  
But you changed it that's for sure, yeah  
You spoke to me, yeah  
You spoke to me, yeah

I drove all the way  
From Carpenters ville  
To see you here tonight  
And it was worth it

You didn't play my favorite song  
But that's all right  
I love the new stuff too  
I'm just glad I got to see you

I don't know if you actually saved my life  
But you changed it that's for sure, yeah  
You spoke to me, yeah  
You spoke to me, yeah

I don't know if you actually saved my life  
But you changed it that's for sure, yeah  
You spoke to me, yeah  
You spoke to me, yeah
