\*whistle\*

"Dayaam, look at baby's hair over there and shit!  
Damn big 1970's Jackson's afro and shit!"

[Boots]

Damn... motherfuckers, always bein like that  
Apply three drips, rub softly with your fingertips  
And even though you flipped, don't trip cause now  
you're, hip  
And now you slick it, you grease it and you lick it  
and you're lookin really wicked but your hair is now  
called good  
You moisturize and texturize and relax-ize and civilize  
it  
but yo I got a 'fro, so a bro's misunderstood  
Kitchen in the back, give me dap I got a knapsack  
Knick knack Patty's wack, cause in her mind it's firm  
that straight is in and out is black  
cause black went out with tenament shacks  
but beauty is a natural fact so I say, "Fuck a perm!"
