

Couple Le "Wishes"

Visit "[Wishes](#)" on MotoLyrics.com

I looked in the sky and there I saw a star shining so
bright above
I closed my eyes and wished upon the star that I would
fine true love
Someone who needed me
Someone to share my life
For a love that would be true
I would wait forever
So...no...matter how long it may be
I will be waiting
One star-brighter than the others
Two Hearts-beating for each other
I believe wishes really come true
Love at first sight I knew it from the moment when you
said hello
I hoped you felt it too, but we were both so shy-how was
I to know
when you reached for my hand
I knew you were the one
We laughed and talked for hours like I'd known you
forever
Like...a...dream or something from a book
True love had found me
One star-brighter than the others
Two Hearts-beating for each other
Noe I see wishes really come true
You just have to dream
Nothing's as bad as it seems
to be...believe me
Someone's waiting for you to try
There in the sky
One star-brighter than the others
Two Hearts-beating for each other
You will see wishes really come true
You can't stop believing-wishes do come true
You gotta believe me (wish on a star) wishes do come
true...
