With the winds of fire, it began to storm  
Beyond the black horizons, beyond all fears  
In the light of the full moon, above the sky  
With a blaze of thorns, the fallen angel rises

Flames of fury  
Surges of hatred  
Death to all  
Disciples of god

Lord of darkness  
Ruler of chaos  
Shroud this earth  
Into Armageddon, apocalypse

Death to peace  
War at least  
Coldness and pain  
Die in eternal flames

With a reign of blood, the night begun  
Beyond all shadows, beyond all pain  
In the light of the fallen, damnation is calling  
In eternal silence, in everlasting fire
