Crazy and he likes it  
He's back and outta control  
So buckle up for safety  
He doesn't like to be told (that's right)  
Mister T, are you ready (yeah)  
Let's take over the world!  
Let's go!

You think you've got me figured out  
But you don't, but you don't  
You make me wanna scream and shout  
'Cause I won't, 'cause I won't  
Let you play me for a fool  
'C-'cause I'm s-smarter than that  
Musically reborn again  
I-i know I-I-I'm on track  
And if you don't like what you hear,  
Too bad 'cause baby, it's like that

Breaking free and I'm loving it  
If you like what you see  
Baby stick with it  
I don't answer to you, so deal with it!  
I'm dropping my bomb  
Can you handle it?

I'm outta control  
I'm not for rent I've just been sold  
Can't stand the heat  
Baby, you're cold  
My rules my game, you've just been told  
Baby, I'm outta control  
Game over, I won this round  
So guess who's back with a brand new sound  
I'll make you're head spin 'round and 'round  
Baby I'm outta control

I know I got under your skin  
I'll push you up, I'll push you down  
Burstin' your eardrums with the sound  
I'll make you fall down to the ground

So baby, welcome to my show  
I call the shots, I make it hot  
For you to handle so get out before I put ya on the spot  
And if you don't like what you hear, so sad,  
I break it down like that

Broken free and I'm loving it  
If you like my song keep playing it  
I don't answer to you, so deal with it  
I'm dropping my bomb  
Can you handle it?

I'm outta control  
I'm not for rent I've just been sold  
Can't stand the heat  
Baby, you're cold  
My rules my game, you've just been told  
Baby, I'm outta control  
Game over, I won this round  
So guess who's back with a brand new sound  
I'll make you're head spin 'round and 'round  
Baby I'm outta control

Now check it out!  
Guess who's back with a track  
With a new kinda sound that will make you wanna crack  
Takin' it nationwide - hell no! - world wide  
Beep-beep down the street  
Let me take you for a ride  
Now stop and listen  
There's a story to be told  
Tiaan is back and he's outta control  
With a bomb in his hand  
Tick-tick boom bang  
Whoop whoop! There he goes  
In his new Mustang

I'm outta control  
I'm not for rent I've just been sold  
Can't stand the heat  
Baby, you're cold  
My rules my game, you've just been told  
Baby, I'm outta control  
Game over, I won this round  
So guess who's back with a brand new sound  
I'll make you're head spin 'round and 'round  
Baby I'm outta control

Baby, I'm outta control
