So what if I didn't know
So what if I never say
You might hear it on the radio
But friends keep telling me there something about
you...

Don't tell me I'm to blame
You had it coming you know
When we both played the same game
I have been thing 'bout calling you out but what would I
say
I look into your mirror and see myself
In the web thta you made

(Chorus)
Cause' I am just like you and your just like me
We both live a little secret thing
Your the last to say I am the first to know
That you conspire liar liar! (liar liar, liar liar)

I have always tried to be a good girl
You broght out the worst in me
I am ready for a new world
I have been wondering why you've benn going around
talkin' that way...
You think your soo clever but I figured you out
Cuz we're both the same

(Chorus)
Cause' your just like me and I am just like you
We both live a little secret thing
Your the last to say and I am the frist to know
You conspire liar liar!

Break my heart see if I care
Take it far and I'll meet you there
Could've played it safe and made it fair
You conspire liar liar
(Liar liar, liar liar)ohh woah woah
(Liar liar liar liar) just like you
(Liar liar liar liar) ohh woah oh

(Liar liar liar liar) just like you
(Liar liar liar liar) ohh woah oh
(Liar liar liar liar) just like me
Just like you and your just like me (x4)

Cause I'm just like you and your just like me
We both live a littke secret thing
Your the last to say I'm the first to know
You conspire liar liar
Brak my heart see if I care
Take it far and I'll meet you there
Could've played it safe and made it fair
You consire liar liar
(Liar liar liar liar) liar liar (x4)
