Neon signs were shining bright
And in the street lights (the street lights)
I saw your shadow was fading away
Well, I lost you all of a sudden

Good-bye my love, I love you too so
Before you went away, I didn't know
Memories awake, only in my dream
When I think I lost them, they all come back to me

You said that you love me
Looked at me softly
You kissed me and held me all night so tight
I know what you're feeling
I know what you're dreaming
All that you feel and everything in your mind

The memories are so clear (so clear, so clear...)
(So-so many...) So many good years (good years...)
The sweet ones I hold dear (hold dear, hold dear...)

Good-bye my love, I love you too so
Before you went away, I didn't know
Memories awake, only in my dream
When I think I lost them, they all come back to me

The memories are so clear
So many good years
Sweet ones I hold dear
Can't hold back the tears
I need you by my side
These feelings I can't hide
So don't walk away, boy
Baby won't you bring back
