I put my body in it,  
Cause that's where I live.  
I have my friends there,  
And they like it.  
I've been away for some time.  
It's so warm outside.  
I'd better wait,  
I'm on standby.

I spend my life on this,  
I spent my time on this.  
It keeps me nervous,  
But I like it.  
He worked 2005,  
I worked last July.  
The room is silent,  
I'm on standby.

Americanized, Americanized,  
It's time, it's time I live my life.  
I recognize, I recognize, the time we waste is the time I  
die.  
It's bright outside, so bright outside, the sun is shining  
on my life.

American eyes, American eyes,  
Well I'm so happy you're alive.
