"Looking Glass Self"

Alone, all by myself
In fear of failure
Unable to see who I am
Who's my savior
And I don't know why
Why I've come here
To the place of condemnation
My existence remains unclear

But I have broken through
Through what enslaved me
Abolish your guilt wall
Realization allowed me to be free
And my self confidence
Has taught me virtues
Your power was my weakness
My weakness was your power

Me - do they need me
You - do I need you
Me - do they need me
You - do I need you
