Your self control might be a muscle spasm
New direction isn't everlasting though
Grove for straws you've got to plan this week
Then the crutch dissolves, when she walks too sweet

Ration of blacktop on the slope of nowhere
Came out to greet the unresponsive stare
Turn green with envy over something you missed
You didn't know what when you fell down in it

Walk on top, you run beneath
The blacktop spreads, the blacktop speeds

Walk on top, you run beneath
The blacktop spreads, the blacktop speeds

Walk on top, you run beneath
The blacktop spreads, blacktop, the blacktop speeds
